maui recommends
soft bags instead of suitcases for easy storage

in-vehicle tablet

Make the most of your in-vehicle GPS tablet, designed to help you find your way. With WIFI hotspot functionality, operational motorhome 'how to' videos, information on how to find and book campgrounds and activities, plus the location of fuel stops and much more, you will have help at every turn.

All vehicles include general living and bedding equipment and feature automatic transmission. The floorplans and specifications are indicative of the vehicle that will be supplied. Actual vehicles may vary according to year of manufacture and availability but your vehicle will be suitable for the required number of people and have similar specifications to those listed. Specifications may change without notice and cannot be requested. Rear cabin air conditioning, heating and microwave must be connected to 240V mains power to function. Solar power panels are used as backup and assist the 12v battery power supply only. Items requiring 240v mains power will not operate from solar power. *Please refer to www.maui.com.au for detailed info on child and booster seats.
